

Environmental Hazards in Asia

Ulaanbaatar, Mongolia, August 12-15th 2024

Post conference field trip: August 16-20th, 2024

environmentalhazardsasia.wordpress.com

This conference will bring together physical and social scientists, governmental and non-governmental actors working towards building resilience to hazards across Asia. The workshop will be structured to allow exploration of the underlying physical mechanics of hazards, explore the impacts of historical events across the continent and focus on the possible approaches to minimizing future impacts. The aim is to facilitate new ideas

Key Dates:

May 15th - Abstract Submission & Applications for travel support deadline

June 1st - Fieldtrip registration deadline

July 12th - Registration deadline

Thanks to the contribution from our sponsors at the Association of Academies and Scientific Societies of Asia (AASSA), we have some funds to support travel and subsistence to up to 20 participants from across Asia. Details on how to apply will be provided soon.
